GUIDED PATIENT SERVICES

PATIENT ADVOCACY & MEDICAL NAVIGATION

Don't have a doctor in the family? Now you do.

Patient advocate and Guided Patient Services (GPS) owner Dr. Annette Ticoras is available to support your personal health and wellness.

If you need her, she is only a phone call away. Consider GPS your:

Consultant

An experienced internal medicine physician, Dr. Ticoras offers guidance and insights to any of your medical concerns or questions.

Coordinator

We schedule medical appointments, research your diagnosis, find alternative treatments, and help you prepare to make the most of your appointment time. Should you require a referral or second opinion, we handle every step for you.

Liaison

We communicate your situation to additional health providers to ensure continuity of care. We update and support family members, explaining complicated medical jargon in laymen's terms as many times as needed.

Care Companion

You never have to be alone. GPS provides much needed peace of mind with an accessible, experienced medical professional by your side during routine or specialty appointments, treatments, procedures, surgeries or hospitalizations.

Committed to Your Health & Independence
